Precision Agriculture at WWCC

Precision Agriculture has evolved from a simple, abstract, buzz phrase into a reality. These formerly conceptual applications are creating major waves within the ag world and are coming to fruition at Walla Walla Community College as well. With successful Plant Science, Animal Science, and Ag Business degrees, the obvious next step was the creation of a Precision Ag AAAS degree. [Read More.](#)

Ag Center Marketing Update

The Agriculture Center of Excellence's marketing efforts have continued to focus on social media and short videos as a method to reach multiple demographics in Washington State. [Read More.](#)

Job Stats

The Ag Center of Excellence hosts and maintains an online Job Board for Agriculture and Natural Resource job openings across Washington State. Recently, the list has grown from 15 openings to over 30; fluctuating as seasons change and planting and harvesting positions become available [Read More.](#)

WACANE

The Ag Center and WACANE members have been partnering to improve their program marketing and enrollment status. [Read More.](#)

Washington Association of Collegiate Agriculture and Natural Resource Educators

ACE Reflections

The Ag Center of Excellence has hosted three consecutive Advisory Board meetings focusing on a five-year plan facilitated by Dave Cunningham. The panel reviewed the existing pathways in the state and that are documented in the core objectives of the Ag Center's grant contract. [Read More.](#)
