

We are now Hiring a Garden Assistant!

Do you love plants, animals, and wine? Do you like working outside in the sunshine? Do you want to learn more about biodynamic practices? Do you like cats hanging out with you most of the day? Are you passionate about the environment? Then we want you!

We are looking for someone with garden or farming experience but are open to training and educating if the fit is right! We practice organic gardening and farming, we need assistance with weeding, harvesting, seeding, and hardening off plants. We have two garden plots you will be working in. In addition, you will be assisting with chicken care, they are an important part of our organic/biodynamic practices. We incorporate the chickens with the vineyard in both a mobile coop and a main coop, both egg layers and meat birds – you will be assisting with baby chicks soon too. We also have a composting program that you will be involved with assisting, as well as our own compost tea. We want someone who has a positive attitude, is hard working, has good communication skills, detail oriented, follow directions clearly and precisely, can be a team player but also work independently, is not afraid to get dirty and is eager to learn. Must be able to physically lift 50lbs, this is a very active job so you will be moving around & on your feet most of the day. Any experience with farm animals, irrigation, fence building, construction, tractors, or forklifts is a plus. Hours will be part time, 4 days a week, Mondays & Tuesdays required, we are flexible on the other two days. Starting pay at \$15 an hour. Send your resumes to Garden@hedgesfamilyestate.com and let us know why you think you would be a good fit!
